Education

High School Diploma • FMV Işık Schools Ayazağa

- During the 4-year course, subjects studied included Mathematics, Physics, Turkish Literature, Geometry, C1-level English, Biology, and Chemistry.

B.Sc. in Management Information Systems • Istanbul Bilgi University

Expected Graduation in February 2025

- Courses include: Web App Development, Machine Learning, User Interface Design, Database Systems, Systems Analysis and 50 additional courses.

Experience

E-Commerce Specialist & Frontend Developer • ADAMO Feb 2021 – Present

- Led the development and continuous improvement of the company's e-commerce website, ensuring it met the evolving needs of the company.
- Responsible for managing site performance and ensuring the accuracy and efficiency of order processing and fulfillment, which maintained a high level of customer satisfaction.
- Designed and executed marketing automation workflows, including weekly email campaigns and customer win-back strategies, which significantly contributed to sustained customer engagement and sales growth.
- Additionally, I collaborated closely with external marketing agencies to refine digital marketing strategies.

Freelance Graphic Designer • Fiverr 2020 – 2021

- I have created custom graphics and animated overlays for streamers, including webcam kits, animated streaming screens, and branding assets.
- My work mainly focused on delivering visually appealing and cohesive designs that enhance the streaming experience according to the customer's needs.
- I have worked on multiple projects during my time as a freelance designer, ensuring timely delivery while maintaining high-quality standards, and have developed expertise in digital design tools such as Adobe Photoshop, Illustrator, and After Effects.

Digital Marketing Intern • Park Inn by Radisson 2017 – 2018

- Managed the updating and oversight of social media and all web-based platforms.
- Created and designed graphics for upcoming events, social media updates, company graphics, mailings and marketing campaigns.
- Managed the input and organization of customer data for future marketing or mailing campaigns.
